Experience

FULL STACK WEB DEVELOPER
DevPoint Labs

May 2016 - Jul 2016
Salt Lake City, UT

- Developed web applications using Ruby on the Rails and ReactJS
- Refactored apps with HAML and SASS to make code more maintainable
- Built interactive components with Javascript, jQuery, and Redux
- Automated testing of Rails applications with RSpec and Selenium

WORDPRESS DEVELOPER/INTEGRATOR
International Information Programs - Office of Design - U.S. State Department

Sep 2015 – May 2016
Washington, DC

- Programmed UX designer's recommendations into a Wordpress production site
- Cloned Wordpress multisite environments to a local sandbox from Github using Composer
- Tested fixes in staging environments before integration into production server to avoid site downtime
- Worked on an agile team, utilizing Git branching and version tagging to collaborate projects

PHP/WORDPRESS DEVELOPER
Nudge

Apr 2015 – Jun 2015
Lindon, UT

- Manipulated jQuery and Javascript to increase site usability and interaction
- Loaded Wordpress, databases, users, and completed other cPanel tasks using bash/SSH
- Modified pre-built themes to meet designer specifications and client needs in Wordpress
- Coordinated with design team to obtain graphics and other materials required to complete build tasks

JUNIOR WEB DEVELOPER
Boostability

Nov 2012 – Apr 2015
Lehi, UT

- Developed over 30 responsive business websites in Wordpress
- Built and used preconfigured templates to speed up the development process
- Managed priorities to finish maintenance requests and web builds within set deadlines
- Followed design specifications set in Photoshop mockups to reduce future bug fixes

Education

BRIGHAM YOUNG UNIVERSITY–IDAHO

Graduated Jul 2012
Rexburg, ID

- Bachelor of Science in Communication
- Emphasis in Computer Information Technology
- Recipient of the Newel K. Whitney Scholar award
